

Ayrshire milk. Naturally the better choice.

Visit our website: [www.ayrshiresa.co.za](http://www.ayrshiresa.co.za)

What makes our Ayrshire milk different? It's completely free of rBST, an artificial hormone which can be given to dairy cows to increase their milk production. But we won't give it to our Ayrshire cows. That's why Ayrshire milk is naturally the better choice – and we're not the only ones who think so.
